

NIZAMUDDIN GIFFA ABDUL AZIZ ZAHRANI

Cikarang, Indonesia | nizamzahrani7@gmail.com | +62 85706203608 | www.linkedin.com/in/nizamuddin-zahrani

Professional Summary

Results-driven Management Information Systems (MIS) student at President University (Semester 6) with a robust concentration in Enterprise Resource Planning (ERP) and business process optimization. Possesses a comprehensive technical skill set spanning full-stack application development (Java, Kotlin, PHP), relational database management (SQL, MySQL), and advanced AI/IoT system integrations (AWS IoT Core, Computer Vision). Proven track record of bridging the gap between complex technical architectures and strategic business objectives, demonstrated through multiple award-winning international competition projects, including securing a Semi-finalist position at the A4S International Case Competition and 2nd Prize at the CONCORD CUP. A proactive leader and effective communicator, experienced in managing public relations, orchestrating sponsorships for large-scale events, and executing impactful community service programs. Highly analytical and detail-oriented, seeking an internship opportunity to leverage a unique blend of technical acumen and operational strategy to drive digital transformation, data-driven decision-making, and process efficiency within the corporate or public sector.

Education

Sept 2024 - Present

President University | Cikarang, Indonesia
